MEMORANDUM FOR: All NIOs

SUBJECT : House Select Committee Subpoenas

1. Attached is a package indicating the items demanded in the seven subpoenas issued by the House Select Committee on Intelligence on 6 November 1975. As I understand the situation, these subpoenas were served on the White House: specifically, the Assistant to the President for National Security Affairs. Technically, therefore, it is only the White House which has been subpoenaed and not the other agencies mentioned in the catalogue of information requested.

2. As you will see, several of these items affect all or at least some of us: specifically, the subpoena dealing with Middle East war documents, the one requesting the minutes of all NSCIC Working Group and Economic Intelligence Subcommittee meetings and the last one, dealing with strategic matters.

3. While we are not yet directly involved, it is clearly incumbent on us to provide all possible assistance to the NSC Staff, who will have to be responding to these requests. In each of your respective areas, would you please attempt a preliminary identification of the documents for which you have some responsibility that are covered by these areas' subjects. Would you also please attempt to ascertain which of these documents were sent to the White House and should now be in its possession. Presumably, the White House would have received at least one copy of all the documents asked for, but this may not necessarily be the case in every instance.

Deputy for National Intelligence Officers
